

GAT for Education **Tailored for Admins**

GAT Labs equips edu administrators with robust tools designed to enhance the management and security of Google Workspace for Education. Streamline operations, and ensure compliance with our tailored solutions. **Our Education Suite Includes:**

Gain Complete Visibility and Control

- **Domain-Wide Insights:** Conduct extensive searches across all Drive files and emails for complete visibility.
- **Risk Management:** Automatically assess and mitigate risks across your Workspace environment, including all core services and 3rd party apps.
- **Proactive Alerts:** Set up customizable alerts for activities related to emails, Drive sharing, application usage, and more, ensuring you're always informed about critical events.

Granular Control and Advanced Security

Unlock

- **Domain-Wide File Management:** Manage Drive permissions, remove unwanted email attachments, and secure sensitive data efficiently.
- **Silent Data Access:** Enable discreet file access and email delegation to maintain workflow without alerting users.
- **Dual-Approval Security:** Strengthen data protection with a mandatory dual-approval process for sensitive tasks, enforced by GAT Security Officers.

Streamlined Workflow Automation

Flow

- **Design Custom Workflows:** Automate tasks like onboarding/offboarding, email signatures, and more, with triggers and conditional logic.
- **User and Group Management:** Automate bulk email migrations, domain-wide signature management, and group membership.
- **Enhanced Productivity:** Free your team to focus on strategic initiatives.

Real-Time Data Loss Prevention (DLP) and Monitoring

Shield

- **The only real-time DLP solution for Google Chrome:** Actively monitor and protect against data breaches directly within the browser.
- **Comprehensive User Activity Monitoring:** Track students and staff activity across all devices to stay compliant and ensure a safety learning experience.
- **Instant Alert System:** Receive immediate notifications about suspicious activities.
